## Mito sospeso 60 fix flat
datasheet

Annular LED suspended luminaire with double-sided light emission and a diameter of 60 cm. There is a choice of two lighting effects. table (wide) for use over tables – wide light beam downwards and upwards. room (narrow) for freely suspended luminaire lighting – concentrated light beam directed downwards, diffused light directed upwards. The maximum suspension length is 350 cm (can be adjusted during fitting).

Version for hollow ceilings with embedded suspension wires and cover for fitting and inspecting the power supply unit. Can be controlled via »touchless control« (gesture control on the head), Occhio air or DALI; alternatively, dimmable via a trailing-edge phase cut dimmer*. Connection to 230 V AC mains voltage. The color temperature can be continuously controlled via »touchless control«, Occhio air or DALI from 2700 to 4000 K or can be preset (2700 / 3000 / 3500 / 4000 K).

DALI connection diagram

A maximum of 32 Mito sospeso units can be assigned to each DALI circuit.

The Mito sospeso requires two DALI addresses per luminaire, which enables control of the top and bottom sides via their own respective DALI address. The maximum output is reached if both DALI luminaires (top and bottom side) are set to maximum brightness (40 W = 20 W up and 20 W down; 60 W = 30 W up and 30 W down).

The Mito sospeso units can be organized into as many as 16 groups and equipped with an additional 16 scenarios (predefined settings).

Using a DALI short address, they can be actuated and configured individually. In addition, the bi-directional data transfer lets users query the state / status of individual luminaires.

You can find more detailed information at www.occhio.com/dali.
